

AGENDA

**Public Safety Committee Meeting
Tuesday, May 3, 2016, 9:15 A.M.
Boardroom, 2nd Floor, City Hall**

Committee Members: Chairwoman Pat Shelton, Joe Leonard, Wendy Sellars

Call to Order

Chairwoman Pat Shelton

Approval of Minutes

April 5, 2016

- 1. Update – Fire Department**
- 2. Update- Final Report Pre-Design Study Police Department**
- 3. Discussion of Body Worn Cameras for the Police Department**
- 4. Consideration of Amendment of Chapter 46, Section 46-31 Prohibited Conditions, Article II, C (1)**
- 5. Update – Police Department**
- 6. Additions/Updates**
- 7. Adjournment**

A quorum of the council may be in attendance and may participate in the discussion, but not vote.

MINUTES

Public Safety Committee Meeting
Tuesday, April 5, 2016, 10:45 A.M.
Boardroom, 2nd Floor, City Hall

PRESENT: Mayor Raleigh York Jr; and Council Members: Chairman Pat Shelton; Joe Leonard; Wendy Sellars; Ron Bratton; Jane Murphy; Scott Styers; City Manager Kelly Craver; Police Chief Jeff Insley, Fire Chief Marty Dailey, Public Services Director Morgan Huffman; Intern with the Mayor from Ledford High School Hunter Thrift; and Barney W. Hill.

Chairwoman Pat Shelton called the meeting to order.

Chairwoman Shelton entertained a motion approving the minutes of February 2, 2016. A motion was made by Councilmember Sellars to approve the minutes and seconded by Councilmember Leonard.

1. Update- Police Department-Standard Operating Procedures of Body Worn Cameras

Chief Insley explained the procedures and recording protocols of Body Worn Cameras. They have in car cameras and have been helpful. Price will vary depending on type and amount of cameras needed. They had open discussion regarding the Body Worn Cameras.

Mr. Craver stated that Chief has written a policy, staff needs to spend some time with that policy, be sure that you are comfortable and all questions are answered.

Chairwoman Shelton stated we could look at this in May; Chief Insley will get cost together for the next meeting.

2. Update New Police Department Building

Mr. Craver stated there is a blue line stream on this property and the Army Corp of Engineers need to look and see if there was any required permitting that we would need to comply with. Information from the Army Corp of Engineers should be back this week. The pre-design study is 90% complete and the remaining should be complete 3 weeks after the Corps of Engineers reports comes back.

3. Update – Police Department

Chief Insley stated violent crimes are down and property crimes are up slightly. Submitting request in honor of Lt. Sabastian they put together a humanitarian award and would like to hand them out in the month of April.

4. Update- Fire Department

Chief Dailey stated they ordered the Nixle Emergency Notification software. Special thanks to Novant Health they contributed \$1000.00 towards the purchase. There will be implementation training session held April 7, 2016, 11:00 am Thursday at Fire Station Headquarters. This will have the ability to reach every landline in Thomasville in less than one minute, to send text notifications to a geographic area with emergency information also provides a central resource for all departments to communicate with the public.

The Fire Department now has access to “e plan”. They will be training fire personnel to utilize access to Emergency and Hazard Chemical Inventory Reports for every business in Thomasville.

Gathering information to prepare and apply for Mitigation grant through FEMA to provide a generator to City Hall on a permanent basis, also prepare to apply for FEMA’s Flood Mitigation Assistance Program to provide funding to procure property along the Hamby Creek area.

Captain Eddie Bowling met with Rosemary Sanchez from Novant Health to review Hazard and Vulnerability Assessment. They have built a great community partnership.

Chairwoman Shelton extended congratulations to Division Fire Chief Dolly Hulin for the State Award she received. Chief Dailey stated Dolly is very deserving of B.T. Fowler Lifetime Achievement Award, Life Safety Education.

5. Additions / Update

Chairwoman Shelton asked if there were any additions or updates. Mr. Craver stated there will be the Crime Stoppers BBQ Chicken plates on Friday April 22, 2016 from 11:00am until all is gone at the Thomasville Farmers Market.

6. Adjournment

Chairwomen Shelton entertained for a motion to adjourn. Councilmember Leonard made a motion to adjourn and Councilmember Sellars seconded that motion.

Thomasville Police Department

Standard Operating Procedure: Body Worn Cameras

Effective date: January 4, 2016

1.0 PURPOSE

Body worn cameras provide clear potential to obtain more complete and accurate documentation in certain incidents and situations to better support prosecution, internal conduct investigations, and improvements to training.

The purpose of utilizing body worn camera equipment is to

- Capture digital audio-video evidence for criminal, civil and traffic-related court cases
- Assist officers with recalling facts or other details captured by the equipment that will help them accurately articulate a chain of events when writing reports
- Be used as a training tool for officer safety and best practices in the TPD
- Assist in the review of contacts between officers and the public by reviewing procedures and interpersonal actions
- To enhance public trust by preserving evidence of officer-citizens interactions.

This policy establishes guidelines related to the use, management, storage, and release of audio and video recordings of body worn cameras.

2.0 DEFINITION

A body worn camera (BWC) is an electronic device worn on a person's body that records both audio and visual data.

3.0 TRAINING

- 3.1 All officers will receive department-approved training before being issued or using BWCs.
- 3.2 Supplemental training will be conducted when deficiencies are identified in the use of these devices, or when changes in protocols, hardware or software affect use and management of these devices.

4.0 DEPLOYMENT

- 4.1 BWCs will be assigned to uniformed officers whose primary function is to answer calls for service and interact with the public (e.g., patrol, traffic, K-9, SRO), or officers who have a reasonable expectation that they will.
- 4.2 Officers assigned BWCs will be responsible for ensuring that the BWC is functioning properly at the beginning of and throughout each shift. In the event of a damaged, malfunctioning or inoperable camera, an officer will immediately inform his/her

immediate supervisor. The supervisor will replace the BWC as soon as practicable if a replacement is available.

- 4.3 While the lack of a BWC will not prevent an officer from working his/her normal shift, failure to report it to a supervisor immediately and use reasonable efforts to secure another for use shall constitute a violation of this policy.

5.0 RECORDING PROTOCOLS

- 5.1 Officers are encouraged, but not required, to inform subjects that they are being recorded. In any event, if asked about the use of a BWC, the officer shall be forthcoming about its use. If the BWC is deactivated, the officer shall document the reason for the deactivation on the BWC or in a written report.
- 5.2 Once activated, the BWC will remain on until the conclusion of the event or until a supervisor authorizes that a recording may cease.
- 5.2.1 In circumstances involving crime scenes, once the scene is secured, an officer wearing a BWC may deactivate the camera if he/she is in a role that is not investigative in nature and the chance of encountering a suspect is unlikely (e.g., securing the outer perimeter, traffic direction), or upon direction from the onscene supervisor.
- 5.2.2 In situations involving transport, the BWC will be left on until the officer reaches his/her destination. In arrest situations where the subject is uncooperative or combative, the officer will leave the BWC on until the subject is fully released to Detention Center staff.
- 5.2.3 When recording during the execution of a search warrant, an officer may deactivate the BWC after the initial sweep of the location, when the incident transitions from volatile and tactical, to stable and investigative in nature.
- 5.2.4 An Officer may elect to deactivate his/her BWC during interviews with witnesses to and victims of crimes –particularly crimes of rape and sexual assault, and individuals wishing to report criminal activity. For instance, if an individual is not willing to talk unless the camera is turned off, officers should weigh the importance of obtaining information versus the recording of the conversation.
- 5.2.5 Officers may deactivate the BWC prior to discussing a case on scene with other officers or during on-scene tactical planning.
- 5.3 Unless otherwise noted, officers wearing BWCs will activate the camera upon initiation of emergency or investigative activity, arrival on the scene of a call for service, upon initial contact with a suspicious or potentially dangerous person, or

during a potentially adversarial contact. Additional activation guidance is provided, as follows:

- When responding to an “Emergency call” call (in conjunction with the activation of blue lights and siren and throughout the response)
- Traffic stops
- Stopping suspicious persons or vehicles
- Voluntary investigative contacts
- Arrests
- Vehicle pursuits
- Calls involving emotionally or mentally ill persons
- Disturbances or disorders
- Calls involving weapons or violence
- Calls identified as “in-progress”
- Searches of persons, buildings, or vehicles (except for strip searches, for which a specific procedure is set forth in Section 5.3.1)
- The initial inventory of seized money or high value property
- K-9 tracking functions
- Use of force situations
- Forced entry search warrants/ tactical deployments
- When weapons are present or alleged to be present

5.3.1 Strip searches. The use of strip searches is highly intrusive and therefore closely regulated and monitored. To preserve the dignity of persons subjected to such a search, an officer will comply with all search preparation requirements. Prior to the search, the searching officer will record a 360-degree view of the subject and location where the strip search is being conducted. At the completion of the search, the searching officer will record a 360-degree view of the subject. All officers present will then place the BWC in a direction facing away from the subject immediately prior to the search itself, so the subject will not be visually recorded during the strip search, and will continue recording to ensure the existence of an audio recording of the search.

5.3.2 Unless articulable exigent circumstances exist and such circumstances later documented, officers shall use best efforts to avoid recording persons who are nude or where sensitive human areas are exposed.

5.4 Officers will note in incident reports whether or not a BWC was used. In the event a BWC was not used, officers will detail the reason for the lack of use in the incident report. Prior to discontinuing a BWC recording in any situation that has not fully concluded, officers will document the reason(s) for discontinuance on the video and in any accompanying report to the incident.

6.0 PROHIBITED USE AND RESTRICTIONS OF BODY WORN CAMERAS

6.1 Officers in possession of a BWC will only use the camera in an official capacity in

accordance with state law and departmental policy. Any personal use of a BWC or a BWC recording is strictly prohibited.

- 6.2 Officers wearing BWCs are prohibited from recording any person whom they know or reasonably should know is an undercover officer acting in his or her official capacity.
- 6.3 Officers wearing BWCs are prohibited from recording city personnel during routine, non-enforcement related activities except as part of an administrative or criminal investigation.
- 6.4 Officers generally will not record conversations with confidential informants and sources. In the event that the recording of a conversation with a confidential informant or source would be of important evidentiary value, the officer may choose to capture an audio-only recording of the conversation by positioning the camera away from the informant/source.
- 6.5 Officers will not record in places where a heightened expectation of privacy exists (e.g., locker rooms, hospitals, bathrooms) except during in-progress criminal activity or when the recording of a particular location would be material to a criminal investigation. In patient care or health facilities, officers should attempt to record only the parties involved in the event being investigated.
- 6.6 Officers will not record court proceedings, pre-trial conferences or any other judicial proceedings.
- 6.7 Officers are not permitted to wear or use a non-departmental issued or personally owned BWCs while acting in their official capacities on or off duty.
- 6.8 Officers are prohibited from using any device to copy, photograph, or record the playback of any video/audio recorded by a BWC, unless such is being done for official, law enforcement purposes.
- 6.9 Officers are strictly prohibited from erasing, altering, or editing BWC recordings, or attempting to do so, with the exception of edits necessary for the proper release of video for training or to the public, and which are approved by the Chief of Police or his/her designee.
 - 6.9.1 In the event that it is substantiated that an officer erased, altered or edited a recording or that an attempt was made to do so, it will be considered an act of dishonesty toward his/her employer, a violation of rules of conduct
 - 6.9.2 In the event that it is substantiated that an officer has a sustained pattern of not activating his/her camera within the provisions set forth in section 5.0, it will be considered a violation of rules of conduct.

- 6.9.3 If minor policy infractions unrelated to the original reason for viewing the video are discovered, the acts must be addressed; it may result in a training referral or verbal correction, and may be included on the employee's performance evaluation. Minor infractions associated with the provision will be addressed through the employee's chain of command.

7.0 COLLECTION OF BODY WORN CAMERA DATA

- 7.1 Officers will upload BWC recordings upon completion of a tour of duty. An exception for utilizing the camera in a contiguous police off-duty work capacity may be made, but the camera must be docked at the conclusion of the assignment to upload BWC recordings and recharge the battery.
- 7.2 Utilizing the designated software application, officers will label each recording captured by the BWC with the appropriate case number (when available) in the following manner: a two-digit year followed by a hyphen, then the six-digit case number. In instances where there are multiple recordings of the same incident, the officer will label each recording with the case number followed by a hyphen and a numeral, starting with number one (1). Officers will also label each record with the type of incident identifier, as provided in the software and through training.

Examples:

- 15-015364 DUI
- 15-015364-1 DUI

- 7.3 In the event of a critical incident as listed below, an officer's immediate supervisor will take possession of the BWC as soon as practical and will be responsible for uploading data:
- Officer-involved shooting
 - In-custody death
 - Any incident involving an officer which results in death or great bodily harm

8.0 SUPERVISOR RESPONSIBILITIES

- 8.1 Upon notification from an officer that a BWC is malfunctioning, the supervisor will immediately collect the BWC and report the malfunction to the system administrator. If available, the officer will be issued a replacement as soon as practicable.
- 8.2 Supervisors will review appropriate paperwork to ensure that recorded events are documented.
- 8.3 Supervisors will ensure that any recordings are properly is stored before the recording.

9.0 AUDITING

- 9.1 Squad sergeants will conduct monthly random reviews of BWC footage captured by their assigned officers. Supervisors will review the footage to evaluate officer performance, to ensure the BWC is being used properly, and to select incidents that may have value for training purposes.
- 9.2 Professional Standards will review and/or secure BWC footage on an as-needed basis to complete internal investigations and inquiries.

10.0 RETENTION, RELEASE, AND VIEWING OF RECORDINGS

- 10.1 Any portion of an audio/video that records events surrounding a violation of the laws prosecutable in the criminal courts of this state or the United States, is considered a record of a criminal investigation, as described in NCGS 132-1.4, and not a public record as defined in NCGS 132.1.
- 10.2 Any portion of an audio/video that is used to subject an employee to departmental disciplinary action is part of that employees' personnel file as defined in NCGS 160A-168, and is open to inspection only as provided by statute.
- 10.3 Recordings which may be beneficial for training purposes will be shared with the Administration Division captain to determine training value and use. If an officer involved objects to the use of a recording for training purposes, the officer may submit an objection, in writing, through his/her chain of command to the Captain, who will determine if the training value outweighs the officer's objection. In any event, recordings used for training purposes shall be redacted as necessary to protect the reasonable privacy expectations of individuals.

10.4 Video retention:

Category	Retention Period
Non-citizen involvement	60 days
Traffic stop – warning	60 days
Traffic stop – infraction	60 days
Traffic stop – misdemeanor	3 years
Traffic stop - felony	20 years
Non-criminal offenses	60 days
Criminal investigations – non-felony	3 years
Criminal investigations - felony	20 years

Non-Citizen Involvement: Video that does not contain an interaction with a citizen, suspect or associated with any other category. Ex: Pre shift test video, blue light and TASER spark test, accidental activation.

- ♣ Traffic Stop Warning: Verbal or written warning, with no citation or arrest, regardless of reason for stop.
- ♣ Non-Criminal Offenses: Interaction with a citizen that is not related to a criminal charge or investigation.
- ♣ IA: All video associated with an internal investigation should be categorized IA, unless the suspect is charged with a felony. If so, it shall be categorized as traffic stop or criminal investigation – felony.

Memo

Date: April, 26, 2016

To: Kelly Craver, City Manager

From: Chuck George, Planning Administrator

Re: 12 inch grass rule

Kelly,

I research other municipal's public nuisance ordinance as requested. My findings are consistent, twelve inches. Here they are:

City of High Point

A place of dense growth of weeds, grass or other noxious vegetation exceeding 12 inches in height, provided this condition shall not apply to those lands certified, dedicated or designated by the city or other appropriate governmental agency as vegetative buffer, floodplain, stream buffer, open space or other natural or environmentally sensitive area established to protect the public or protect and preserve natural greenways, floodways, streams or water quality.

City of Greensboro

Any place of dense growth of grass, weeds or other noxious vegetation over twelve (12) inches in height, except for ornamental grasses chosen for features like color and form, such as switch grass, pampas grass, fountain grass, and bamboo, and with the following provisions:

City of Lexington

A place of dense growth of weeds, grass or other noxious vegetation exceeding twelve (12) inches in height, provided this condition shall not apply to those lands certified, dedicated or designated by the city or other appropriate governmental agency as a hayfield, property undergoing reforestation, vegetative buffer, floodplain, stream buffer, open space or other natural or environmentally sensitive area established to protect the public or protect and preserve natural greenways, floodways, streams, or water quality.

City of Archdale

The existence of grass or weeds that exceed the height of twelve (12) inches over a large portion of the property shall be prima facie evidence of violation of this ordinance. If multiple adjacent parcels under singular ownership are found to be in violation of this ordinance, then each parcel shall be counted as an individual violation.

City of Salisbury

It shall be unlawful for the owner and/or occupant of a property to fail to cut grass, weeds, and other overgrowth vegetation on property when the grass, weeds and other overgrowth vegetation is of a greater height than twelve (12) inches on average, or to permit the property to serve as a breeding place for mosquitoes, as a refuge for rats and snakes, as a collecting place for trash and litter, or as a fire hazard any one (1) of which situations is declared to be a nuisance. It shall be the duty of the owner and occupant to cut and remove all grass, weeds, and other overgrowth vegetation as often as necessary.

City of Thomasville

Any weeds or other vegetation having an overall height of more than 18 inches above the surrounding ground provided that the following shall not be considered to be a part of this condition: trees and ornamental shrubs; cultured plants; natural vegetation on undeveloped property that is not a threat to the character of surrounding properties; and flowers and growing and producing vegetable plants.

Based on these findings reducing our minimum height from 18 inches to 12 inches is a reasonable request.

Chuck George

Planning & Inspection Administrator

City of Thomasville

Current Ordinance

Chapter 46, Article II

(c) Specific conditions declared to be public nuisance. The following enumerated and described conditions, or any combination thereof, are hereby found, deemed, and declared to constitute a detriment, danger and hazard to the health, safety, morals and general welfare of the inhabitants of the city and are found, deemed and declared to be public nuisances wherever the conditions may exist and the creation, maintenance or failure to abate any nuisances is hereby declared unlawful:

- (1) Any weeds or other vegetation having an overall height of more than **18** inches above the surrounding ground provided that the following shall not be considered to be a part of this condition: trees and ornamental shrubs; cultured plants; natural vegetation on undeveloped property that is not a threat to the character of surrounding properties; and flowers and growing and producing vegetable plants.

Proposed Amended Ordinance

- (1) Any weeds or other vegetation having an overall height of more than **12** inches above the surrounding ground provided that the following shall not be considered to be a part of this condition: trees and ornamental shrubs; cultured plants; natural vegetation on undeveloped property that is not a threat to the character of surrounding properties; and flowers and growing and producing vegetable plants.
