

Davidson County Transportation System
Covid-19 Paratransit/Demand Response Adjustments
Press Release
Monday, March 30, 2020

As of Tuesday, March 31, 2020, Davidson County Transportation System will implement a new requirement for citizens to utilize our Paratransit or Demand Response services.

To improve our “social distancing,” DCTS will ask the following questions before scheduling transportation:

1. Has anyone in the home been recently diagnosed with the Flu or Covid-19?
2. Has anyone in the home had these symptoms in the last 14 days:
 - a. Fever of greater than 100
 - b. Difficulty in breathing
 - c. Constant or persistent cough
3. Have you traveled outside the US in the last 14 days?

Affirmative answers to these questions should result in the trip being denied and refer to them to their medical provider or EMS for assistance.

For questions, please call 336-242-2250.
