

Together,  
we will beat this

## **We see the trend, and we are taking action**

We all know a crisis can amplify the issue of barriers to healthcare. In this coronavirus challenge, we see a disturbing trend: that African Americans are at higher risk of death from coronavirus, due to the deep and complex social factors that have long influenced health and wellness in our communities.

### **Expanding access**

We're delivering care where it is needed most with our mobile clinics, respiratory assessment and screening centers throughout our communities. We are also offering 24/7 access to virtual care and a dedicated coronavirus helpline (1-877-9NOVANT). Learn more about our screening and respiratory assessment centers — as well as our virtual care options from the convenience of home at [NovantHealth.org/coronavirus](https://NovantHealth.org/coronavirus).

### **Helping you stay informed**

To help keep our communities safe and informed, we've partnered with beatboxing legend Doug E. Fresh and Charlotte native and Grammy-winning artist Anthony Hamilton to give an important reminder about staying home.
